

1. What Animal received the highest score?

The animal which suited my personality is **Lion** who is good at making decisions and it is very goal oriented. Though I am fun seeking and cheerful person who loves to communicate and great at motivating, But Lion personality suited me the best with the score of **36**.

2. What are the scores for each animal:

1. Lion:36
2. Otter:25
3. Golden Retriever:15
4. Beaver:24

3. What do you agree and disagree with the description of the primary animal and yourself?

The Lion who is the king of the forest not just because of its physical appearance but also who enjoys challenges and difficult assignments. It's because lions are more focused on the goal, they can step on people to reach it. I **agree** that most of the personality of lion suited me the best but at the same time I **disagree** that may be lions are aggressive and dominated in nature which is opposite of my personality since I am fun loving person and good listener.

4. Considering the listed strength for the animal, how does that relate to yourself?

I like to be a leader who also enjoys taking bold decisions and take charge in solving problems like lions and I am a fun seeking person and excitable who is cheerleader type and great in motivating others like outers who is outgoing nature makes me a great networker. Like golden retriever who will be more supportive and good in playing team. I always seek for accurate results and before something goes wrong will do more analysis like beaver.

5. Considering the listed weakness for the animal, how does that relate to yourself?

I am not someone who follows routines like lions, and I am someone who avoids confrontations with others like golden retriever and at the same time someone who tend to hold grudges and remember hurts inflicted by others.
